# Who are we ?

JFM Wholesale is a belgian **family-owned company**, specialized for more than 70 years in the production and distribution of B2B consumer products throughout Europe and mainly in Western Europe.

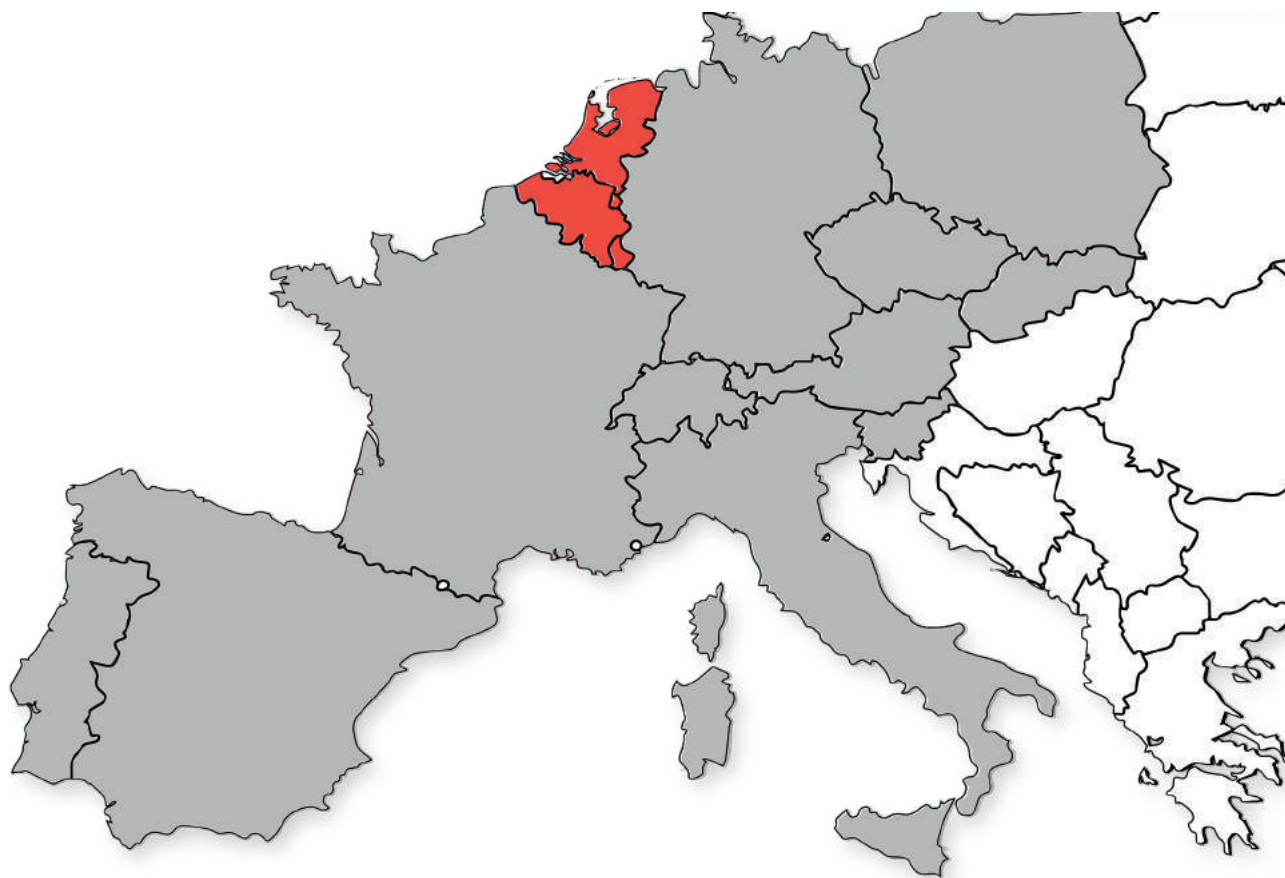

Our company is **extremely dynamic**, sector's leader and constantly growing and acquiring new markets.

Our core business is focused on products for smokers, namely **tobacco and smoking accessories**. However, we also regularly diversify our activities into promising products.

The quality of our sourcing, the diversity of our ranges as well as our proactivity on the market allow us to remain **extremely competitive** and attractive towards the major global players.

We are owning the whole logistic process and **delivering daily hundreds of retailers** from our 3.500m<sup>2</sup> warehouse towards Europe.

# Certificates & Products Safety

Millions of Belflam lighters are sold across Europe annually. All must pass stringent certified and integrated quality management proved by ISO certificate 9001 issued by TÜV Rheinland.

Belflam lighters are produced in TÜV monitored factories. Safety-relevant necessities are certificated by ISO 9994 and ISO 22702. Continuous high quality and safety are guaranteed.

Certificate ISO 9994 established the safety-relevant requirements for lighters up to 10 cm in regard to heat resistance (65°C), shock susceptibility and the size of the flame.

Certificate ISO 22702 also confirms the safety-relevant requirements for lighters in regard to heat-resistance (65°C) shock susceptibility and the size of the flame. But it is valid for lighters more than 10 cm in size. They are categorized as utility lighters.

All Belflam Lighters sold in the EU comply with the child resistance specifications of EN 13869. At least 85% of children between 42-51 months of age shouldn't be able to light that specific lighter.

All Belflam sale units are provided with the required warning and safety symbols.
